CAREER OBJECTIVE

Motivated B.Tech student specializing in Artificial Intelligence and Data Science, with a strong interest in web development. Seeking internship opportunities to apply technical knowledge, gain industry exposure, and contribute to real-world projects.

TECHNICAL SKILLS

• Programming: Python
• Data Science: Pandas, NumPy, Machine Learning (Basics)
• Web Technologies: HTML, CSS, JavaScript, **React.js**
• UI/UX Tools: **Figma**
• Database: SQL (Basic)
• Tools: Git, GitHub, VS Code

EDUCATION

B.Tech – Artificial Intelligence & Data Science
KIET Group of Institutions (2023 – 2027) | Percentage: 65%

Intermediate (MPC)
2021 – 2023 | Percentage: 85%

EXPERIENCE

Developer Intern – RCTS Lab
International Institute of Information Technology, Hyderabad (IIIT-H)
Winter Internship | 1st December 2025 – 31st December 2025
• Completed a one-month winter internship as a Developer Intern under research guidance.
• Contributed to project development tasks and problem-solving activities.
• Gained exposure to research-oriented development practices.
• Demonstrated strong collaboration and technical understanding.

PROJECTS

Smart Fertilizer Recommendation System
• Developed a machine learning-based system to recommend suitable fertilizers based on soil nutrients and crop type.
• Implemented data preprocessing and prediction using Python, Pandas, and NumPy.

Temperature Forecasting Project
• Built a predictive model to forecast temperature trends using historical climate data.
• Performed data analysis and visualization to identify patterns.

CERTIFICATIONS

• Google Android Development
• Artificial Intelligence and Machine Learning
• Altair Data Science Master Virtual Program

SOFT SKILLS

- Communication Skills
- Problem Solving
- Teamwork
- Time Management
